happypeople

An employee benefits solution to keep your people happy

Employee benefits are a powerful draw for the brightest talent. We built our **happypeople** platform to help you attract, engage and retain the very best people.

happypeople is cleverly built yet simple to use. We'll host all of the employee benefits that you provide to your people and give them the freedom to manage their benefits themselves, online. We'll also take the administration and ongoing promotion off your hands, freeing up some of your valuable time!

What does happypeople include?

- A huge choice of competitive benefits to excite and engage your employees.
- Help with selecting the right benefits for your business, at the best price.
- A proprietary software platform which is under constant development to meet your evolving needs.
- An engaging, easy-to-use employee interface which can be personalised to reflect your brand.
- Savings on thousands of retailers, from fashion to the food shop, holidays to days out and lots in between.
- Advice and broking for group health and risk products such as private medical insurance, ensuring maximum value for money and generating savings where possible on renewal premiums.
- Group financial advice, pensions administration and financial wellbeing consultancy.
- Transparent pricing – one single fee, with no hidden extras.

PES

What does happypeople include?

- Internal communications support from our in house-experts, who design your promotional calendar and create content for your scheme launch and the rest of the year.. After all, what's the point in investing in happypeople if no one knows about it?
- Regular catch-ups with a dedicated account manager. We strongly believe that communication is key, so we'll be proactive, not reactive when it comes to making a success of your scheme.
- A dedicated employee helpdesk. The best people to answer your employees' queries are the ones who built your platform, so you and your employees will have assigned members of the support team who are familiar with the nuances of your scheme.
- Simple upload/download data transfer (fully GDPR-compliant of course), with support to help you manage data in the best possible way.
- Information and reports, so you can see which of your benefits are most popular, who has chosen what scheme, payroll deductions to be made and more – saving you administrative time and giving you a clear picture of how your scheme is performing.

What will you gain?

- ✓ Increased productivity, because your people will feel valued and motivated to perform better.
- ✓ A lower recruitment spend, because you'll attract and retain employees.
- ✓ Significant return on your investment and increased employee engagement.
- ✓ Reduced administration and risk with support from a GDPR-compliant partner.

We'd love to hear from you
